Colorado 56 is an very bright, sporty hard top, wich can be closed and at the same time can be considerer as a true open, combining excitement and rationality.

The element characterising this model is the curved tempered glass door with mirror finish between the cockpit and the helm station. This means the cockpit can be partially closed off, providing maximun comfort and extending the time for enjoying a really special holiday. When it is not being used, the door disappears into the weather cover, giving the look and operation of true open-top boat.

The galley is at the centre of the boat and provides a stepping stone between the inside and the outside, creating a unique, open environment. It's an impressive kitchen, perfect to enjoy moments of pleasure and relaxation with friends and guests.
