Compositeworks

Located: France

Comments: 100 feet catamaran "ALLURES" - An unique blend of performance and elegance
ALLURES is the result of a passionate owner's vision: to create a high-performance catamaran without compromising on comfort or style.

Fully built in carbon fiber

- Including a 36-meter rotating wing mast, Cuben Fiber sails, carbon winches and deck fittings
- **ALLURES** is a true technological feat. She regularly sails at 20 knots and has reached an impressive top speed of 27 knots.

While performance is at the core, the interior reflects warmth and sophistication. Designed by the owner's wife, an interior designer, it harmoniously blends traditional and modern touches through the use of fig tree wood, mahogany, and leather.

Designed for enjoyment at sea, the yacht is fully equipped for leisure: 3-seat jet ski, diving gear, water skis, windsurfs, and sea kayaks. Each cabin features full connectivity: satellite, TV, phone, and internet.
The construction brought together top European specialists:

- **Compositeworks** (France): hulls, systems, painting, and coordination
- **Technicomposit** (France): superstructures and components
- **Arredamenti Porto** (Italy): interior fittings
- **Lorima** (France): mast and rigging

ALLURES excellence in design and execution earned her a nomination for the **World Superyacht Awards 2007** in the 30–40m sailing yacht category.

Key Points :

- Designed for global cruising capabilities
- Originally launched in 2006, extensively refitted in 2022
- Impressive top speed of 27 knots and a comfortable cruising speed of 20 knots
- Accommodates up to 10 guests across 5 elegant and well-appointed staterooms, including 1 master on the main deck
- Sophisticated interiors combining rich mahogany wood and refined leather accents
- High-performance rotary carbon wing mast ensuring exceptional sailing dynamics
- Hydraulic platform for tender launch and a full collection of water sports equipment
- Expansive outdoor living areas with trampolines and open-air dining spaces
- Certified by Bureau Veritas and compliant with MCA safety standards
- Shortlisted for the prestigious 2007 World Superyacht Awards
